

Fuel oil supply and booster modules

Standard and tailor made solutions for engines from 1,000 kw to 56,000 kw with thermal, steam or electrical heating

thermal oil heated for engines up to 4,000 kw

Pos. 10.1 change over valve
Pos. 2.1 duplex filter
Pos. 1.1, 1.2 supply pumps
Pos. 7.1 pressure control system
Pos. 2.2 automatic fine filter
Pos. 3.1 consumption measuring system
Pos. 4.1 mixing tank with accessories

Pos. 1.3, 1.4 booster pumps
Pos. 5.1, 5.2 HFO preheaters
Pos. 6.2 viscosimeter sensor
Pos. 4.2 compensation damping tank
Pos. 5.3 MDO cooling unit
Pos. 10.2 MDO change over valve
